MCG Logistics

Freight Audit & Payment

Complete Visibility into Freight Spend Through Integration

By allowing experts to manage your contracts, audit your bills, allocate the charges, make the payments, and report the results, you are assured of paying the correct amount.

Freight Audit Automation: Carrier compliance with contract requirements

73.1% Compliance

Change in annual base line freight **7%** increase

85.6% Compliance

Change in annual base line freight **2.5%** reduction

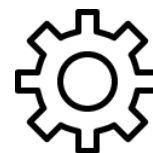

Since 1993, MCG Logistics has been a valuable resource to companies by providing the technology and supply chain industry expertise to help them manage all aspects of their supply chain – physical, informational, and financial. We give our clients the power to design a customized solution that meets their specific business needs. The end results are improved efficiencies, greater control, and significant ongoing savings.

Why MCG?

Connect all your freight spend data in a single system

Freight Audit helps companies more easily track and examine where freight dollars are being spent. Understanding the true cost of moving a shipment from Point A to Point B is essential to controlling transportation expenditures.

Simplify the process for everyone

MCG's Freight Audit utilizes specific knowledge and sophisticated technology solutions that allow us to find errors that might otherwise slip by. Our automated processes can analyze invoices more quickly, efficiently, and at a lower cost than a shipper can on their own

Features of MCG's Freight Audit & Payment Services

Data Capture

Efficient EDI processing, OCR scanning, Online Data Entry, manual data entry, or custom file processing

Cost Allocation

Allocate costs by any requested client criteria (e.g. carrier account, origin, recipient, product, or employee)

Contract Management

Scan, store, review, and analyze all contracts online

Audit & Analysis

Fully automate audit for all duplicate, rate, discount, ancillary, and performance metrics with refund processing for all exceptions

Exception Management

Online access to review all billing exceptions to modify, reject, or approve for payment processing

Integration

Seamless integration to customer **ERP/AP**, **MCG's Business Intelligence Application**, and **MCG's TransStream TMS**
